

A2 Book cradle Anagramm® BookTable

This new book cradle offers most simple handling and is a competitive alternative to the well known products. The robust construction guarantees a long life for mass digitisation of books up to format A2. This bookcradle is for reproductions of books and scripts in a high end quality.

The contact pressure is adjustable with a crank, so sensitive books are treated gently.

A N A G R A M M

- Dimensions 886mm x 522mm x 538mm
- Bearing of the book over two plates 300x450mm
- Max. thickness of a book 150mm
- Finely adjustable pressure to protect the spine of the books

For illumination fluorescent lights are best suitable, especially for reproduction of gold ornaments. In connection with the Anagramm scanback a throughput of more than 500 double pages per day with the best possible quality in 600dpi is possible.
