

LIGHTBAR 130

Article Number: 9930

A slimline, clear light for even lighting and gradients using a tunnel diffusor. Cleanly definable shadows can be achieved using the precise adjustment of the flaps / wings. The outstanding pluses include mirroring of lines, emphasis of edges and contours. You can use several light bars side by side with no light interruption.

L x W x H: 130 x 13 x 22,8 cm

Weight: 9,1 kg, Cable: 5 m

Data sheet

Output:	3000 J
Connection:	round plug-in or 20-way plug-in (long)
Modeling Lamp:	4 Modeling lamps a 150 W
Cooling Fan:	yes
Multivoltage:	yes
On-Off Switch for Flash and Halogen Light::	yes, for modeling lamps
Weight in kg (with 5m cable):	9,1 kg
Dimensions in cm L x W x H:	130x13x22,8
