

MH 6000

Article Number: 554

Up-to-date technology with clever features ,now more compact than ever! The HENSEL reflector diameter - so that complete system compatibility with existing equipment is guaranteed.

Everything else has been newly designed:

- >Newly constructed housing in nicely shaped aluminium profiles. Blue operation panel, extremely compact size!
- >Housing and mechanical elements in full metal construction for rugged, daily use Newly developed swivel bracket for uncomplicated fixing in any position
- >Improved automatic for quick reflector change - extremely strong hold for heavy loads additional lock to avoid unintentional loosening
- >Newly developed umbrella holder with special clamp mechanism directly on flash head
- >Separate ON/OFF switch for modeling lamp and flash
- >Modeling lamp up to 650 W halogen
- >Protection sheath to prevent cable breakage
- >Compatible with the operating system of all other HENSEL units

Data sheet

Output:	6000 J
Connection:	20 way-plug, long
Modeling Lamp:	650 W
Aperture from 2m, 100 ASA, t 1/60, without Reflector:	-
Flash Duration 0,5:	-
Cooling Fan:	Yes
Reflector connection:	15,5 cm
Cable lenght:	5 m
Multivoltage:	No
On-Off Switch for Flash and Halogen Light::	Yes
Plug-in Flash Tube:	No
Reflector Quick Change Mechanism:	Yes
Solid Handle:	Yes
Glass Dome:	Yes
Integrated Umbrella Holder with clamp:	Yes
Weight in kg (with 5m cable):	3,3

Dimensions in cm L x W x H: 16,3 x 16,7 x 21 (without swivel bracket)
