## New - Technical Kits from Alpha, Linhof & Silvestri with the NEW Hasselblad CFV-50c

In October Linhof Studio & Hasselblad launch three Technical Camera Packages with their CFV-50c Back. The Packages have been put together to provide an easy 'off the shelf' set up complete with everything you need to start taking images, including adapter plates and cables. The CFV-50c houses a 50 MPixel CMOS sensor with live view functionality, enabling technical camera users direct focus without the need for ground glass focus or sliding backs. These packages are available exclusively through Linhof Studio.

### NEW LINHOF FAST WIND

Linhof has introduced the fast wind lever for the rear standard of the Linhof Techno and also for the Linhof 3D Micro. Faster rise can now be achieved before reverting to the fine geared movement. The Fast Wind simply pushes over the existing lever. Code 2770 £85 + Vat

### RODENSTOCK NEWS

The success of the HR series of Digital Lenses from Rodenstock is proven and the introduction of the 32mm with a 90mm image circle and the 90mm SW complete this series.

### NEW LINHOF 3D SERIES AND PANORAMIC PLATES WITH DISC LOCK

The clamps on both panoramic plates of the 3D Series have completely been revised by a three clamp system for extra strength and ease of use.

### LINHOF 3D TRIPOD HEADS SERIES & PANORAMA PLATES

Linhofs **New 3D Series** is available with the Classic Linhof Quick Release and the Standard Dovetail fitting. The DT fitting allows the use of camera plates and accessories from companies like Arca Swiss, Really Right Stuff and Novoflex to name a few. Mirco 3D £799 + Vat 3D Levelling £575 + Vat

Linhof **Panoramic Plates** are a quick Release system with an integral fine panoramic movement. In addition these can be fitted to the Linhof Classic Profi Ball Head range allowing a pan facility below and above the ball joint. £275 + Vat

### NEW LINHOF STITCHING SLIDE FOR DIGITAL BACKS WITH LIVE VIEW FOR LINHOF TECHNO AND LINHOF M 679CS

As Digital Backs move towards Live Focus, Linhof introduces the Stitching Slide - Code 2768 S. An extra short Sliding Back without the ground glass facility. This allows the possibility of stitching with a live focus back whilst retaining the compact camera size that the possibility of live focus backs create. Integrated stops allow a 2 shot stitch and will enlarge the image size of digital chip backs (of 37x37 to 37x71 and of 37x49 to 49x71mm).

Should there occasionally be a need for ground glass focus, Linhof have also introduced the NEW Ground Glass Adapter: Ground Glass adapter I 690S. It accepts the Standard and Bright screens from Linhof and sits within the same aperture of the Stitching Slide as the Digital Back adapters.

### NEW EH SPEEDLIGHT ADAPTER

With this useful accessory all your high quality Hensel EH light formers can be used on a speedlight. The wide adjustment range allows you to mount nearly any speedlight. £129 + Vat

### NEW LINHOF DOVETAIL ANGLED DEVICE FOR 3D MICRO -

Linhof angled device with dovetail-track (003661-D), expands the possibilities for the use of the 3D Micro in vertical positioning of the camera. Both angled devices - with Quickfix adapter and dovetail - have also been equipped with the improved Disc Locks for panorama rotation. £229 + Vat

### Silvestri BiCam II Kit - £13,650.00 + VAT

Silvestri BiCam II Camera  
(15mm + 15mm front rise & fall and rear lateral shift 15mm + 15mm)  
Lightweight and compact 43mm Apo Digital XL Lens Hasselblad CFV-50c  
Digital Back Direct Adapter for the CFV-50c

### Linhof Techno Kit - £15,500.00 + VAT

Rodenstock 40mm f4 Digaron W  
Hasselblad CFV-50c Digital Back  
Direct Adapter for CFV-50c

### Alpha STC Kit - £18,000 + VAT

Alpha STC Camera & Grip  
Rodenstock HR Alpagon 40mm  
f4 Lens and Swing / Tilt adapter  
Hasselblad CFV-50c Digital Back

### NEW LINHOF SCORING 43,9x32,9 MM FOR THE BRIGHTSCREEN

Linhof offers a new BRIGHTSCREEN with scoring 43,9x32,9 mm. This BRIGHTSCREEN expands the Linhof range of quality screens for digital photography and can be used with the Linhof Techno and Linhof M 679cs. Linhof Brightscreens are extremely fine-grained, have an integrated Fresnel screen and thereby offers a superb bright matt field. The fine grain of these screens is also perfectly suited for working with the Linhof Studio 12x Critical Focus Loupe.

### ALPA NEWS: THE FPS SERIES CONTINUES TO GROW.

The Alpa FPS is one of the most versatile cameras in Medium Format Photography. With an integral shutter this body can be added to an Alpa as a shutter or used as a stand alone platform with numerous options from Canon to Phase One and now offers adapters to utilise some of the finest legacy lenses from Contax and Hasselblad. These adapters are also available with 12mm shift as an option.

### HENSEL NEW EH MINI P LED SPEED HEAD FOR THE HENSEL PORTY LOCATION BATTERY SYSTEM

The perfect solution for video and photo shoots. Using a sophisticated high-power 40W LED modelling light with a glass lens, it is mounted on a special heat sync and cooled by a fan to withstand the high temperatures generated by the flash tube. Because of its excellent efficiency, **the light output of this LED is similar to a 300W halogen lamp** Saves battery capacity Longer life span £650.00 + Vat

### NEW HENSEL LIGHTBAR LED

A High Quality LED Lightbar with Sophisticated LED Technology. High Light output (equivalent 2000W) 9 f stops in 1/10th Increments. Flicker Free. Optimum Colour Rendering and Variable Colour Temperature. £3900 + Vat
