RODENSTOCK NEWS

The success of the HR series of Digital Lenses from Rodenstock is proven and the introduction of the 32mm with a 90mm image circle and the 90mm with a 125mm image circle SW complete this series.

NEW EH SPEEDLIGHT ADAPTER

With this useful accessory all your high quality Hensel EH light formers can be used on a speedlight. The wide adjustment range allows you to mount nearly any speedlight. £129 + Vat

NEW LINHOF FAST WIND

Linhof has introduced the fast wind lever for the rear standard of the Linhof Techno and also for the Linhof 3D Micro series. Faster rise can now be achieved before reverting to the fine geared movement. The Fast Wind simply pushes over the existing lever. Code 2770 £85 + Vat

NEW LINHOF 3D SERIES AND PANORAMIC PLATES WITH DISC LOCK

The clamps on both panoramic plates of the 3D Series have completely been revised by a three clamp system for extra strength and ease of use.

LINHOF 3D TRIPOD HEADS SERIES & PANORAMA PLATES

Linhof's New 3D Series is available with the Classic Linhof Quick Release and the Standard Dovetail fitting. The DT fitting allows the use of camera plates and accessories from companies like Arca Swiss, Really Right Stuff and Novaflex to name a few.

Linhof Panoramic Plates are a Quick Release system with an integral fine panoramic movement. In addition these can be fitted to the Linhof Classic Profi Ball Head range allowing a pan facility below and above the ball joint.

NEW TECHNICAL KITS FROM ALPA, LINHOF & SILVESTRI WITH THE NEW HASSELBLAD CFV-50C

In October Linhof Studio & Hasselblad launched three Technical Camera Packages with their CFV-50C Back. The Packages have been put together to provide an easy off the shelf set up complete with everything you need to start taking images, including adapter plates and cables. The CFV-50C houses a 50 Mpixel CMOS sensor with live view functionality, enabling technical camera users direct focus without the need for ground glass focus or sliding backs. These packages are available exclusively through Linhof Studio.

Lightweight and compact 43mm Apo Digital XL Lens
Hasselblad CFV-50C Digital Back Direct Adapter for the CFV-50C

NEW LINHOF SCORING 43,9X32,9 MM FOR THE BRIGHTSCREEN

Linhof offers a new BRIGHTSCREEN with scoring 43,9x32,9 mm. This BRIGHTSCREEN expands the Linhof range of quality screens for digital photography and can be used with the Linhof Techno and Linhof M 679cs. Linhof Brightscreens are extremely fine-grained, have an integrated Fresnel screen and thereby offers a superb bright matt field. The fine grain of these screens is also perfectly suited for working with the Linhof Studio 12x Critical Focus Loupe.

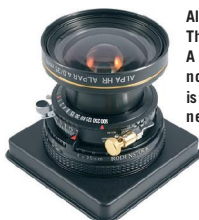

NEW LINHOF STITCHING SLIDE FOR DIGITAL BACKS WITH LIVE VIEW FOR LINHOF TECHNO AND LINHOF M 679CS

As Digital Backs move towards Live Focus, Linhof introduces the Stitching Slide - Code 2768 S. An extra short Sliding Back without the ground glass facility. This allows stitching whilst retaining the compact feature live focus backs provide. Integrated stops allow a 2 shot stitch and will enlarge the image size of digital chip backs (of 37x37 to 37x71 and of 37x49 to 49x71mm).

Should there be a need for ground glass focus, Linhof have also introduced the NEW Ground Glass Adapter: Ground Glass adapter 1690S. It accepts the Standard and Brightscreens from Linhof and sits within the same aperture of the Stitching Slide as the Digital Back adapters.

NEW ALPA PRODUCTS

Alpa HR Alpar 35/f4.
The 35mm Apo Alpar - A fast wide angle lens if no or only moderate shift is required. Ideal with the new CMOS sensor and Alpa TC

New Alpa lens shades for the 35mm Apo Alpar & 70mm HR Alpagon. Designed for optimum efficiency of protection against stray light - calculated for each lenses' image circle.

Alpa smart Device Holder III
Designed for use with the latest digital live view backs.

New Alpa Sync Release Block
The Alpa release is an innovative wake up triggering solution for digital backs and has now been designed to offer smooth direct triggering from camera.

New Dovetail Tripod Top plates
The Alpa plates have locating pins for the Alpa bodies to prevent any possibility of movement or twist when mounted.

NEW LINHOF DOVETAIL ANGLED DEVICE FOR 3D MICRO

Linhof angled device with dovetail-track (003661-D), expands the possibilities for the use of the 3D Micro in vertical positioning of the camera. Both angled devices - with Quickfix adapter and dovetail - have also been equipped with the improved Disc Locks for panoramic rotation. £229 + Vat

NEW LEE FILTERS LANDSCAPE POLARISER

Launched at Photokina 2014, the Landscape Polariser has a slight warm up effect to enhance greens in landscape photography. In addition, it is ultra slim allowing use with a 16mm lens on full frame without Vignetting. But the best news is the price - £145 + Vat.

NEW LEE FILTERS SEV5N SETS

Three New Filter Sets for the successful Sev5n series have been introduced. Out of Town, Seascape and Urban. All 3 include the Big Stopper

NEW FILTER HOLDER FOR XXL LENSES

Linhof Studio has developed a NEW filter holder to accept the SW150 filters. Designed specifically for lenses with large front outer diameters from 90mm 136mm. The holder comes with a 105mm adapter ring.
RRP £245.00+VAT
Other sizes available 90mm, 95mm, 100mm, 110mm, 112mm, 115mm, 117mm, 122mm, 125mm each £95.00+VAT

ALL YOUR ESSENTIAL ACCESSORIES: CABLE RELEASES, WRAPS, LOUPES AND MORE

NEW THE ALL NEW SW150 SYSTEM FOR SUPERWIDE LENSES

The NEW LEE Filters SW150 system has been designed specifically for Super wide lenses with no filter thread / tulip lens hoods with extreme curved front elements like the Nikon 14- 24mm lens. It accepts filters 150 x 150cm or 150 x 170mm if Graduated. A wide range of the LEE Filters resin filters are available for the SW150 series now including a Polarising solution and high density ND's like the 10 f stop Big Stopper. A separate System Adapter allows you to fit the SW150 system onto LEE Filters 100mm series allowing to utilise the filters on other lenses.

SW150

THE ONLANDSCAPE LEE FILTERS KITS FOR 100 & SEV5N SERIES

on landscape

Supplied in a dedicated BW cases the OnLandscape LEE Filters Kits are unique sets of filters intended for the advanced and expert photographer. These non-standard formulations are based on Lee Cornish's own request to LEE Filters and reflect on 30 years of experience as a filter user. Available as a 100 series or Sev5n series kit. Includes a 20% discount subscription to OnLandscape.

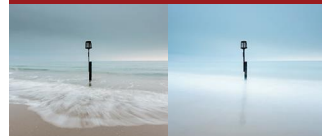

The 100 kit contains:

- 0.6 ND Graduated Very Hard Filter
- 0.9 ND Graduated Mid Way Filter
- 1.2 ND Graduated Hard Filter
- Lee Triple filter wrap

The Sev5n kit contains:

- Lee Filters 0.6 ND Grad Hard
- Lee Filters 0.6 ND Grad Soft
- Lee filters 0.9 ND Standard Pro Glass
- Filter holder & adapter ring

LEE FILTERS LITTLE STOPPER

Launched at the Photoshow 2014 the Little Stopper is what many photographers have been waiting for. Less extreme than its 'big brother' the Little Stopper gives a useful 6 stop reduction in exposure values. Available for the 100mm series as well as the Sev5n series.

LINHOFSSTUDIO GO PRO STOCKIST - FOR YOUR LEE FILTERS BUG AND MUCH MORE

BERGGER CLASSIC BLACK & WHITE

Bergger is reintroducing their classic Black & White sheet film and PMK Developer
Pancro 400 Sheet Film available Spring 2015 in 4x5, 5x7 & 10 x 8 inch. PMK Sets are now available £39.50+vat
INTRODUCTORY OFFER – Free BRF 400 plus 35mm roll of film with every Pyro PMK Kit bought.
The PMK formula was developed by Gordon Hutchings in order to create a universal developer. It is a fine grain pyrogallol developer for extremely sharp negatives with beautiful highlights. Greater tone graduation, reduced grain & high contrast. Supplied as 2 separate solutions for a shelf life of up to 10 years. Makes 25 litres.

NEW RODENSTOCK VARIO ND FILTERS

Rodenstock have introduced a new version of their Vario ND Filter.

The density range has been extended to 6 stops without any purple cast. Still very slim to avoid vignetting even on wide lenses. Available in 49 /52 /55 /58 /62 /7 /72 /77 /82 mm

Also from Rodenstock:
HR Digital UV Super MC Slim Filter - transmits its visible light without hindrance while cutting out ultraviolet radiation
Rodenstock HR Digital Super MC Circular Polariser Slim - essential when the light from the sun bounces off a flat non metallic surface, such as glass or water
Rodenstock HR Digital ND Filters 2x- 0.3ND/ 4x- 0.6ND/ 8x- 0.9ND Slim - Corrects exposure, creates motion blur.

NEW BW OUTDOOR CASES

BW Outdoor cases have introduced a new generation of cases. B&W outdoor cases are designed to be used in the toughest situations and tested under the most extreme conditions. They are designed for temperatures ranging from -40 C up to +80 C. The Outdoor cases are stackable and watertight, dustproof, crack proof and shock resistant.

The new generation now features:

- Ergonomic two-component handle with soft inlay for an easy and comfortable transport, Double-stage locks, easy to open
- Automatic air pressure compensation valve, releases air from the interior, while keeping water out.
